EXPERIENCE

Software Engineer *Magic EdTech* Sept 2025 – Present

- Developed and maintained scalable production applications using React.js and Angular.
- Integrated Stripe payment workflows and built clean, reusable UI components following best practices.
- Collaborated closely with designers and backend teams to deliver high-quality features and improve overall application stability.

Software Engineer Intern *Magic EdTech* Apr 2025 – Aug 2025

- Assisted in building and maintaining production-level applications using React.js and Angular.
- Worked with Angular modules and standalone components to implement UI features.
- Collaborated with senior developers to fix bugs, optimize code, and improve application performance.

Fellowship Trainee (React Developer) *BridgeLabz* Nov 2024 – Apr 2025

- Completed a 4-month intensive fellowship focused on hands-on React.js and JavaScript application development.
- Developed scalable, reusable frontend components using React functional components, hooks, modern ES6+ features, and REST API integration.
- Followed component-driven development and Git-based workflows while actively participating in Agile ceremonies, sprint planning, and peer code reviews.

EDUCATION

Bachelor of Engineering — Chitkara University CGPA: 9.56

Senior Secondary Education | 2021 82%

SKILLS

Languages	Java, JavaScript, TypeScript with strong understanding of Object-Oriented Programming concepts
Web Development	HTML, CSS, React.js, Node.js, Angular.js, Angular CLI, Material UI, Express.js, JWT, MongoDB, SQL, REST APIs, Google SEO, Google OAuth
Tools & Technologies	Git, GitHub, Gitlab Linux, Tailwind CSS, JSON, Postman, Jira
Soft Skills	Problem Solving, Team Collaboration, Active Listening, Time Management

PROJECTS

Movie Explorer Web Application *React.js, TypeScript, Redux, Tailwind CSS, Stripe*

- Developed a responsive movie discovery platform with Home, Login, Admin, Movie Details, and Wishlist pages using React Router.
- Implemented Redux for centralized state management to efficiently handle user data and movie listings.
- Integrated Stripe for subscription-based payments and Firebase for push notifications.

PG Finder System *React.js, Node.js, Express.js, MongoDB*

- Built a PG listing and booking platform with filters based on city, pricing, and available amenities.
- Developed REST APIs using Express.js and stored PG and user data in MongoDB.
- Implemented secure authentication using JWT and bcrypt for password encryption.

Online Book Store *React.js, TypeScript, Redux*

- Developed an online book shopping application featuring product browsing, cart management, and user authentication.
- Managed cart and user state using Redux and implemented navigation using React Router.
- Designed responsive and reusable UI components using TypeScript and custom CSS.

CERTIFICATIONS & ACHIEVEMENTS

- Solved 900+ Data Structures and Algorithms problems on LeetCode, strengthening problem-solving skills.
- Achieved a 5-star rating on HackerRank for consistent performance in coding challenges.
- Completed Mastering Angular certification from Udemy.
- Earned certifications in Advanced Web Development and Advanced Data Structures from Coursera.
- Completed Object-Oriented Software Engineering certification from Infosys.
- Generative AI: Elevate your Software Development Career
